Game goals

- The aim of the game is to develop a spirit of cooperation between individuals. You can not succeed alone
- Pay attention to the health of animals by providing medicine, developing veterinary hospitals and increasing the number of doctors

How To Play

1. Register a new account and get a farm containing an unlimited resource and the main buildings in level one
2. Each building needs one or more unlimited resources so it can produce
 - Farm needs water resource and farmers resource
 - Factory needs Electricity resource and Workers resource
 - Hospital needs Electricity resource and Doctors resource
 - Stockyard needs food from the farm , health care from hospital and medicine from factory
3. In level one farm can produce up to **1 unit every 30 seconds**, factory can produce **8 units every 20 minutes**, animals can increase to double every 10 minutes but the limit of capacity in **level one is 8 animals**
4. Animals consume **1 food unit per animal every 5 minutes**, factory consume **2 food units per level every 20 minutes** and hospital consume **2 food units per level every 10 minutes** if no food animals will die and building will **stop production**
5. You need to upgrade farm, factory, hospital and stockyard to increase your ranking, the one who have much animals he will win.
6. Building without its resources will not produce and your animals will die
7. You can trade with your products in market to get gold
8. You need gold to upgrade your buildings
9. Make requests to other players to complete your resources and upgrade building and production
10. You can share your unlimited resources up to 5 times
11. Good Luck
